<b>Percentage of telemedicine patients that had teleconsultation within two working days of the patient request.....</b>	<b>5</b>
<b>Percentage of Emergency/Urgent care Referrals in Telehealth .....</b>	<b>6</b>
<b>Percentage of In-Person Referrals by Specialists, or Consultants .....</b>	<b>7</b>
<b>Percentage of Antibiotic Prescription through Teleconsultation .....</b>	<b>8</b>
<b>Percentage of Sick Leave Prescriptions via Teleconsultation .....</b>	<b>9</b>

### Executive Summary

The Department of Health– Abu Dhabi (DOH) is the regulatory body of the healthcare sector in the Emirate of Abu Dhabi and ensures excellence in healthcare for the community by monitoring the health status of its population.

The Emirate of Abu Dhabi is experiencing a substantial growth in the number of hospitals, centers and clinics. This is ranging from school clinics and mobile units to internationally renowned specialize and tertiary academic healthcare centers. Although, access and quality of care has improved dramatically over the last couple of decades, mirroring the economic upturn and population boom of the Emirate, however challenges remain in addressing further improvements to the healthcare sector.

The main challenges that are presented with increasingly dynamic population include an aging population with increased expectation for treatment, utilization of technology and diverse workforce leading to increased complexity of healthcare provision in Abu Dhabi. All of this results in an increased and inherent risk to quality and patient safety.

DOH has developed a dynamic and comprehensive quality framework in order to bring about improvements across the health sector. This guidance relates to the quality indicators that DOH is mandating the quarterly reporting against all fully operating general and specialist hospitals in Abu Dhabi.

The guidance sets out the full definition and method of calculation for Telehealth access in the form of clinical outcome performance indicators. For enquiries about this guidance, please contact [jawda@doh.gov.ae](mailto:jawda@doh.gov.ae)

This document is subject for review and therefore it is advisable to always utilize online versions available on the DOH website.

Effective from: Version 2, Q1 2025

### About this Guidance

The guidance sets out the definitions and reporting frequency of JAWDA Telehealth service performance indicators. The Department of Health (DoH), with consultation from local and international expertise of chronic disease management has developed Telehealth performance Indicators that are aimed for assessing the degree to which a telehealth service provider competently and safely delivers the appropriate remote clinical services to the patient within the optimal time period.

The Jawda KPI for telehealth clinical indicators in this guidance include measures to monitor i.e., how well telehealth care hospitals and centers provide remote care for their patients, how often telehealth care hospitals and centers follow best practices and how effective they are at keeping patients healthy, and how patients feel about their experience on remote telehealth service. Healthcare providers are the most qualified professionals to develop and evaluate quality of care for people with chronic conditions; therefore, it is crucial that clinicians retain a leadership position in defining performance among telehealth service including scheduled and unscheduled services.

### Who is this guidance for?

All DoH licensed healthcare facilities providing telehealth care services and standalone telehealth care facilities in the Emirate of Abu Dhabi.

### How do I follow this guidance?

Each provider will nominate one member of staff to coordinate, collect, monitor and report telehealth services quality indicators data as per communicated dates. The nominated healthcare facility lead must in the first instance e-mail their contact details (if different from previous submission) to [JAWDA@doh.gov.ae](mailto:JAWDA@doh.gov.ae) and submit the required quarterly quality performance indicators through Jawda online portal

### What is the Regulation related to this guidance?

- Legislation establishing the Health Sector
- Department of Health Standard for Telehealth care issued 16th September 2020. <https://www.doh.gov.ae/-/media/0272CB2B824D41D6B4A2A5C78EBD94F9.ashx>
- As per DoH [Policy for Quality and Patient Safety](#) issued January 15<sup>th</sup> 2017, this guidance applies to all DoH Licensed Hospital Healthcare Facilities in the Emirate of Abu Dhabi in accordance with the requirements set out in this Standard.
- DoH claim adjudication policy <https://www.doh.gov.ae/en/resources/standards>
