

Addendum 34 to DOH Claims & Adjudication Rules

Version

V2012

Including the Mandatory Tariff Pricelist Application Rules.

Department of Health

Department of Health

1. Purpose of this Document.

The purpose of this addendum is to standardize the codes and prices of ART-related services outside of the IVF bundles. This addendum should be read in conjunction with addendum 24 and other related documents.

2. Rule effective Date:

04 September 2023

3. CPT/SERVICE Codes

Code	Code Description	Procedure Name
55899	Unlisted procedure, male genital system	Microsurgical Testicular Sperm Extraction
54505	Biopsy of testis, incisional (separate procedure)	Testicular Sperm Extraction
54500	Biopsy of testis, needle (separate procedure)	Testicular Sperm Aspiration
55899	Unlisted procedure, male genital system	Percutaneous Epididymal Sperm Aspiration
S4028	Microsurgical epididymal sperm aspiration (mesa)	Microsurgical Epididymal Sperm Aspiration

Code	Code Short Description	Code Long Description
70-12	Pre-implantation genetic testing for aneuploidy (PGT-A)	Pre-implantation genetic testing for aneuploidy (PGT-A), includes genetic consultation and counselling, embryo biopsy and all other necessary steps required to perform PGT-A test, for up to 5 embryos
70-13	PGT-A for each additional embryo	Pre-implantation genetic testing for aneuploidy (PGT-A) as an add-on for SRVC code 70-12, includes genetic consultation and counselling, embryo biopsy and all other necessary steps required to perform PGT-A test, for each additional embryo

Department of Health

70-14	Pre-implantation genetic testing for monogenic gene disorders (PGT-M)	Pre-implantation genetic testing for monogenic gene disorders (PGT-M) as an add-on for PGT-A (SRVC code 70-12), includes genetic consultation and counselling, review of the genetic testing report of parents from G42, custom test development (probe preparation) and all other necessary steps required to perform PGT-M test, for up to 5 embryos
70-15	PGT-M for each additional embryo	Pre-implantation genetic testing for monogenic gene disorders (PGT-M) as an add-on for SRVC code 70-14, includes genetic consultation and counselling, review of the genetic testing report of parents from G42, custom test development (probe preparation) and all other necessary steps required to perform PGT-M test, for each additional embryo
70-16	Pre-implantation genetic for structural chromosomal rearrangements (PGT-SR)	Pre-implantation genetic testing for structural chromosomal rearrangements (PGT-SR) as an add-on for PGT-A (SRVC code 70-12), includes genetic consultation and counselling, review of the genetic testing report of parents from G42, custom test development (probe preparation) and all other necessary steps required to perform PGT-SR test, for up to 5 embryos
70-17	PGT-SR for each additional embryo	Pre-implantation genetic testing for structural chromosomal rearrangements (PGT-SR) as an add-on for SRVC code 70-16, includes genetic consultation and counselling, review of the genetic testing report of parents from G42, custom test development (probe preparation) and all other necessary steps required to perform PGT-SR test, for each additional embryo

4. Claims and Adjudication Rules

- The above codes shall be reported using the appropriate Encounter Type as per clinical criteria.
- Pre-authorization is required for all codes mentioned within this adjudication.
- For the purpose of ART services, codes 55899, 54505, 54500 shall be reported with mandatory observation fields using the procedure name of the codes as indicated above. Missing mandatory observation fields or deviation from the procedure name shall result to non-payment of the service.
- For the purpose of ART services, codes 55899, 54505, 54500 and S4028 are not bundled codes and shall be reported and billed using the appropriate billing methodology for the procedures indicated above.
- Service codes 70-13, 70-15 and 70-17 are considered as add-on codes for each additional embryo and shall only be reported and billed after the maximum number of embryos required for the respective parent codes 70-12, 70-14, 70-16 (up to 5 embryos) are fulfilled.
