1. Project Overview

1.1. Project Overview & Background

This document outlines the service integration between the Department of Health (DOH) with healthcare providers system. Moreover, it also elaborates on the details of integration in terms of technical Web Services.

1.2. Project Scope

DOH to provide Web Service (API) to healthcare providers to consume the service to request crash accident details by passing emirates ID or unified Id or injured traffic number get the accident details.

1.3. Project Dependencies

Following are the dependencies of this project:

- Emirates ID or Unified ID or Traffic number should pass and should not pass all fields in request.

1.4. Project Stakeholders

The following comprises the internal and external stakeholders whose requirements are represented by this document:

S. No.	Stakeholders
1.	Department of Health Abu Dhabi (DOH)
2.	Healthcare providers

1.5. Key Assumptions & Constraints

S.No.	Assumptions
1.	Healthcare providers to call DOH provided Rest based Service (API) i. API to get crash accident details
2.	Consuming application to use DOH provided security header for service credential validation
S.No.	Constraints
1.	Emirates ID or Unified ID or Traffic number should pass and should not pass all fields in request

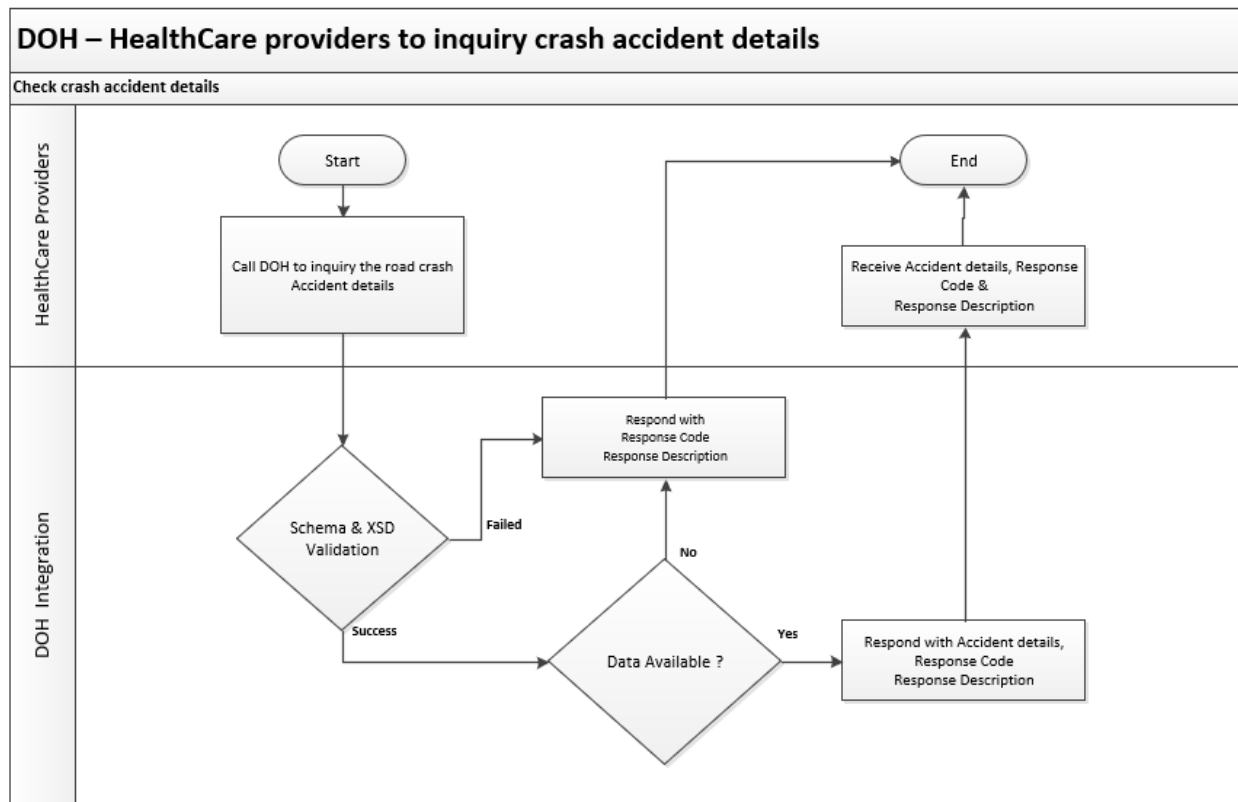

2. Participants

The following Actors/Users who will use this system:

	Actors/Users	Designation /Role	Organization	Description
1.	Healthcare providers	-	Healthcare providers	Hospitals
2.	DOH	-	DOH	DOH System.

3. Design Models

3.1. *Software Schematic View*

4. Web Services Interfaces

4.1. *DOH Gateway Service*

Following the service will be provided by DOH in TEST environment, which will allow consumer (Health care providers) to get crash accident details. Following are the details of the service,

4.2. *Endpoint Details*

Stage Endpoint	https://ietest.doh.gov.ae/DOHInt/RestFul/ADDA/ADPOLICE/CrashAccidentsService/getCrashAccidents
Production Endpoint	https://ieprod.doh.gov.ae/DOHInt/RestFul/ADDA/ADPOLICE/CrashAccidentsService/getCrashAccidents (TBD)
Method	POST
Username	Use the existing credentials shared earlier
password	Use the existing credentials shared earlier
Header	DOHGatewayAPIKey and existing key value
Content-Type	Json

5. Request Body:

```
{
  "InjuredUnifiedId": 100000985064,
  "UserID": "DOHUSER",
  "SystemCode": 1
}
```

5.1. Request Parameter:

- 1) **InjuredTrafficNo**: traffic profile number of the injured person –optional
- 2) **InjuredEmiratesId**: Emirates Id of the injured person –optional
- 3) **InjuredUnifiedID**: unified Id of the injured person –optional

Note: Only any one of the above fields should be given as a request. All should not be given at once in request.

5.2. Request Headers:

Authorization: Basic Authentication, credentials shared by the DOH.

DOHGatewayAPIKey: ID for the DOH Gateway (mandatory, provided by DOH Team)

Content-Type: application/json

5.3. Response Body:

Success Response

```

6. Glossary

Term/Acronym	Definition
DOH	Department of Health, The health regulating body in the Abu Dhabi Emirate.
Healthcare Providers	Abu Dhabi health care providers (Hospitals)

7. Change Management

7.1. *Schedule for changes to transactions*

7.1.1. *Changes to transactions*

The changes will be implemented twice a year: from 1 June and 1 December with four months lead time.

7.1.2. *Changes to business rules*

Changes to business rules will be implemented twice a year, from 1 June and 1 December with four months lead time.

7.1.3. *Validation Checks*

DOH may implement validation checks against existing transactions and business rules at any time based on agreement with all entities involved.

8. DOH (Representative)

I have reviewed the above stated Business requirements of ***Department of Health.***

I hereby give you approval to proceed to develop the new system.

I understand that further changes to the Business requirements, Business rules or Business process will likely result in a delay in the final delivery date.
